Legendary Design, Enduring Quality

Quality. Quality. Quality: Miele's Maxim

S5 vacuum cleaners are manufactured at Miele's Bielefeld factory in Germany, where every effort is made to adhere to the company's 111-year-old motto of *Immer Besser*, or *Forever Better*. In Bielefeld, every Miele vacuum cleaner is put through rigorous endurance testing in custom-built laboratories to ensure the utmost quality and durability. Before the production process begins, each component also must undergo individual testing. After all the parts, electronics and accessory tools have successfully passed each critical exam, the Miele brand name is bestowed upon them.

Excellent Maneuverability

The three smooth-running 360° castor wheels mounted on steel axles ensure maximum stability and maneuverability for your vacuum cleaner. They are cleverly designed with a travel ramp to help you maneuver your vacuum easily over thresholds and around obstacles.

Wide Operating Radius

The S5 is fitted with an extra-long cable to eliminate the need for the user to frequently switch electrical sockets while vacuuming. The hose and suction tube combined provide the user with a generous operating radius of over 30 feet.

Six Level Power Adjustment

The power setting on the S5 can be adjusted to six different levels, in order to customize the intensity of the suction to the type of surface being cleaned. The levels are marked with graphic symbols on the vacuum and include surfaces ranging from curtains to rugs to hard floors. On select models, the power levels are back-lit, making it even easier for the user to find the right setting.

Miele UNIQUE Silence Setting

All Miele vacuums are known for their quiet operation, but a new sound insulation layer in the S5 makes this model particularly quiet. The "silence setting" offers the lowest noise output along with the ideal power level for the given surface, enabling a most pleasant and effective cleaning experience.

Miele UNIQUE Intelligent Automatic Setting

When the automatic setting is selected on an S5, the power level of the vacuum cleaner adjusts automatically to best suit the floor surface it is currently cleaning. Now, that's technology working for you!

Purposeful Design

Miele vacuum cleaners are instantly identifiable by their stylish design and unique character. Miele's engineers pay careful attention to every curve, angle and line so that the vacuums are as beautiful as they are functional. Still, the beauty of Miele's vacuums is more than skin deep, as they are skillfully crafted to provide easy operation, remarkable efficiency and effortless movement.

Durable Bumper Strip

The fully-integrated bumper strip is made from soft plastic and stretches all the way around the vacuum to protect both the vacuum and your furniture in the event of a collision.

Convenient Park System

During short cleaning breaks, you can simply clip the wand and floor tool into the park system on the back of the canister. On selected models, when the park system is engaged, the vacuum also switches off the motor at the same time, so you don't have to.

Fully Integrated Set of Accessories

Helpful accessories are always within reach since the S5 features a neat, on-board storage compartment. Accessories include a crevice nozzle for hard-to-reach spaces, an upholstery tool for couches and curtains and a dusting brush for cobwebs and ledges.

AirClean Sealed System™

Breathe Easy, With a Little Help From Miele

For over 80 years, Miele's research, development and quality control laboratories have tested methods to ensure that our vacuum cleaners effectively pick up and contain dust and other indoor air pollutants. After collecting volumes of data, engineers and designers continue to reach the firm conclusion that Miele's system is the most effective and hygienic method of removing particulate matter from the home.

Our exclusive Sealed System™ uses the very best raw materials and the revolutionary, electrostatically-charged AirClean filter-bag. The AirClean filter-bag pairs with a selection of high-quality filter cartridges, including a certified HEPA (High-Efficiency Particulate Air) filter, which comes with every S5 vacuum.

In fact, the S5 vacuum series has been awarded certification by the DMT Air Quality Testing Institute, an independent institute that monitors air hygiene. The S5 joins other Miele vacuums – which were the world's first to receive this certificate – with a top rating of "excellent air quality"[1].

The certification is a testament to Miele's AirClean Sealed System™, which combines the powers of the HEPA filter and the vacuum cleaner to provide the purest indoor air quality.

Please exercise caution when evaluating other vacuum filtration systems, as there are many gimmicks that do not work as effectively or scientifically. Since poor indoor air filtration can have devastating effects on the young or elderly and to allergy or asthma sufferers, we encourage these affected consumers to visit a local authorized Miele dealer to discuss the importance of indoor air quality and how a Miele vacuum cleaner can protect and improve it. You can be connected to your local Miele dealer by calling (800) 579-4583 or by visiting our convenient dealer locator on mieleusa.com.

Array of Floor Tools

The Perfect Tools for the Ultimate Clean

Each Miele vacuum cleaner is equipped with a unique array of floor tools tailored for cleaning specific surfaces. This ensures that you have the right equipment to make cleaning your home fast and easy with perfect results.

Classic Combination Carpet/Smooth
(Model SBD 550-3)
This tool is ideal for all smooth flooring and low pile carpeting. It allows you to go from smooth floors to carpeted surfaces with a quick click of the foot switch.

Parquet Twister
(Model SBB 300-3)
A mixture of polyamide and natural hair ensures a gentle cushion for this floor brush which makes sure that tile, wood and other smooth surfaces are cleaned thoroughly with extreme care. It has a 90° rotation and is exceptionally agile at cleaning around obstacles such as table legs and in tight places.

Deep Cleaning Medium-Plush Carpeting

Electro Premium
(Full-size Model SEB 236)
This electrically driven carpet tool with a 13⅝" wide brush roll lets you adjust its height based upon the pile of carpet. A perfect solution for deep-cleaning medium and thick plush carpeting.

Electro Plus
(Mid-size Model SEB 228)
Equipped with a 14" wide brush, swivel neck and five level height adjustment, the SEB 228 electrobrush is suitable for medium to high-pile and plush carpeting.

Electro Comfort
(Mid-size Model SEB 217-3)
This electrically driven carpet tool with a 10½" wide brush roll with floating head and swivel neck design is ideal for low and medium pile carpet care.

Turbo Comfort
(Model STB 205-3)
The Miele turbobrush contains a rotating roller brush that is activated by the air that's drawn through the head and works to loosen the dirt in the floor while collecting lint and thread. The turbobrush is also fitted with a buffer strip to protect furniture from scuffing. This tool works best on cut pile.

S5 Product Selection

S 5211 ARIEL

POWER
- Powerful 1,200-watt Miele-made Vortex Motor System™ providing strong suction power
- 6-stage suction control via rotary dial

FILTRATION
- Sealed System™ construction
- Unique AirClean filter-bag
- Dustbag change indicator
- Standard Filter: Air Clean Filter
- Optional Filters: Active Air Clean Filter, Active HEPA Filter

ACCESSORIES
- Durable, non-electric hose
- Lightweight, telescopic stainless steel wand
- Floor Tool: Classic Combination Carpet/Smooth Floor Tool *(SBD 550-3)*
- 3 fully intergrated accessories: dusting brush, upholstery tool, crevice nozzle
- Long electrical cord
- Automatic cord rewind

Miele

Anything else is a compromise

Without Compromise

There are only a few brands in the world that have sustained their vision, traditions and quality for more than a century. Fewer still that can claim consistent family ownership and international brand name integrity. And only one that is recognized for creating the world's most innovative appliances. Founded in 1899 with a single promise of *Immer Besser*, a German phrase meaning *Forever Better*, Miele has dynamically grown to become the world's largest family-owned and operated appliance company.

With over 80 years of experience, Miele has become the largest floor care brand in Western Europe. When it comes to indoor air quality and the safety, health and well-being of your family there is no room for compromise. Designed to trap and retain virtually all the dangerous particles other vacuums let back into the air you breathe, a Miele vacuum cleaner works relentlessly to safeguard you, your home and all that you care about.

Extend this level of advanced, hygienic care to the linens you sleep on, the towels you wash with and the clothes you wear. Miele's innovative laundry systems are engineered to provide optimal cleaning results, while reducing the allergens in the fabrics surrounding your family. Come explore a higher level of clean.
